While an Irrigation Non-Expansion Area designation for the Hualapai Valley Groundwater Basin may not be the perfect solution to protecting our most finite resource, it is one of the only tools Mohave County currently has in its arsenal. With the current annual groundwater withdrawal four times the amount of yearly recharge in the basin, action must be taken. For this reason, we support the designation of an Irrigation Non-Expansion Area for the Hualapai Valley Groundwater Basin. Further, we urge the Arizona Department of Water Resources and the State of Arizona to explore and implement additional safeguards throughout rural Arizona to ensure our water future.

Sincerely,

Robbie Cordes, President
Mohave County Landowners Association
